CANADIANS WIN FERMILAB CANOE CLASSIC

Two teams of Fermilab experimenters captured the leads in NALREC's second Accelerator Canoe Race classic Sunday, September 21.

John Martin of Experiment #2B and James Prentice of Experiment #25, both from the University of Toronto, finished the race in 53 minutes, 23 seconds, to set a new first place world record time. Prentice and his partner George Luste were 1974 first place winners at 53 minutes, 38 seconds.

Hans Paar and Bruce Tews of Columbia University, Experiment #70, finished in second place at 58 minutes, 45 seconds. It was their first time in the Fermilab race.

John O'Meara of Fermilab Technical Services and his daughter Sue placed third, with their time of 63 minutes, 16 seconds.

Also finishing the race were the teams of Harry Howe-Max Palmer, 63 minutes, 57 seconds; Sam Childress-Dean Shembeck, 66-14; Howard Anderson-Ruben Pineda, 68-31; Warren Light-Keith Schuh, 73-24. Novices Becky Anderson and Carm Ruski also entered the race.

The canoeists put in at the F-4 sector of the Fermilab main accelerator ponds at 3-minute intervals shortly after 11:00 a.m. A brisk cold wind and a cloudy sky made it a good day for tackling the vigorous course which extends nearly the four-mile circumference of the Fermilab Main Ring.

Moving clockwise from F-4 after the first seven portages, the teams crossed the southeast segment of the circle via the inner pond waterway, a large body of water with no portages which would usually allow them to pick up some time. But here all encountered the strong crosswind of the day and it was tough paddling for any but the veterans. No mishaps or serious capsizing hindered the Fermilab sportsmen Sunday. A few minutes of intense competition occurred at the E-4 portage where the one-canoe-only space creates a back-up that had to be overcome in the ponds that followed.

On the final lap, the racers, though portage-soaked and winding down, kept up their grueling pace, several coming to the finish line in canoe pairs. Sue O'Meara held the uncontested title of Wettest Finalist of 1975.

Spectators cheered at the finish line where Howie Pfeffer, Helen Ecker, and Pat McDonald carefully clocked the final times. Larry Allen, chairman of the race, presented the winning trophies over beer and pizza in the Village Barn after the race.

The race was monitored and assisted by members of Fermilab's Amateur Radio Club who

maintained a portable observation station on the 14th floor of the Central Laboratory as well as mobile observers around the race route. Greg and Dawn Chartrand handled the Central Laboratory station, while Bob Hodge, Don Mendenhall, Jack Upton, Greg Urban and Les Wahl handled the field.

Curt Owen, Pat Dougherty, Mark Koenig, Charlie Crose, and Tom Saunders were portage supervisors. Members of the Site Patrol and the Fire Protection department also stood by.

FIRE PREVENTION WEEK OCTOBER 5-11

Fermilab's Fire Protection Service will join in the national observance of Fire Prevention Week October 5-11 offering a unique program at the Laboratory that will include both employee participation and demonstrations.

Some 19 sessions on fire prevention and fire safety will be conducted by the Fire Department staff for many parts of the Laboratory. The programs will be given both in the Central Laboratory and in the Village. There are still openings for these special presentations, which will last for about 30 minutes. Call Fire Protection Services, Ext. 3428, for exact times of the sessions.

An outdoor demonstration of fire fighting techniques will be given by the Fire Department personnel from 12 noon to 1 a.m. on Monday, October 6 in the flag pole area in front of the Central Laboratory. Everyone is invited to attend. Demonstrations of fire extinguisher use are also being offered by the Department.

MAN RAY EXHIBIT AT FERMILAB

A selection of the photographic works of Man Ray is on exhibit now at Fermilab. The exhibit is from the famous Man Ray collection of Chicago attorney Arnold Crane. The Crane collection is currently showing at the Chicago Museum of Contemporary Art.

Man Ray was the first to fully utilize the medium of photography toward abstract ends. Born in Philadelphia, he has lived in Paris for many years. Regarded as a true Renaissance Man, Ray's photographic forms include his experiment with negativeless photographs, producing his Rayographs, and other unusual techniques. A man of broad artistic talent, Ray also is a painter and sculptor.

The Man Ray exhibit at Fermilab will continue through October 6, on the second floor lounge of the Central Laboratory.

GRADUATE STUDY CONFERENCE SCHEDULED

Career experts from 62 Midwest Graduate Schools will hold a "Recruiting Fair" to acquaint prospective students with the programs offered by their respective schools. The conference will be held at the Conrad Hilton Hotel, 720 South Michigan Avenue, Chicago, on Thursday, October 30, from 2-8:30 p.m.; Friday, October 31, 10:30 a.m. to 8:30 p.m.; Saturday, November 1, 10 a.m. to 3 p.m. There is no admission charge.

"This is a nice chance for anyone contemplating MBA level education to find out what is being offered," John McCook, Associate Director for Administration, points out, "and I urge Fermilab employees to take advantage of the opportunity if they're interested."

For further information contact Ruth Thorson, CL 6E, Ext. 3324.

...Visiting Fermilab recently were Gabriel and Monique Tortella (R), shown here conferring with Eric Jarzab, manager of Fermilab's Food Services. Gabriel Tortella is well-known to visitors to CERN, Geneva, Switzerland, for the style and charm of the restaurants which he operates at CERN. He was invited to Fermilab for discussions of the Fermilab food service...

FINE ARTS QUARTET AT FERMILAB OCTOBER 11

The world-famous Fine Arts Quartet will appear at Fermilab on Saturday, October 11, at 8:30 p.m. in the Fermilab Auditorium. It is their third appearance at Fermilab, their second this year.

The Fine Arts Quartet Concert Series at the Goodman Theater in Chicago has few parallels in success in America. For over 15 years they have performed new works commissioned for this series, including the 1969 Pulitzer Prize winning composition. The Fine Arts Quartet productions have appeared on Channel 11, Chicago television, and on the National Educational Television network for many years. Since 1963 the Fine Arts Quartet has been the quartet in residence at the University of Wisconsin-Milwaukee, where the artists are permanent members of the faculty, with professorial rank. Members of the Quartet are: Leonard Sorkin, violin; Abram Loft, violin; Bernard Zaslav, viola; and George Sopkin, cello.

A special buffet dinner will be served in the Fermilab Cafeteria preceding the concert, at 7:00 p.m. The cost will be \$4.00 per person. Reservations are necessary for the dinner hour. Concert tickets and dinner reservations may be obtained by calling Ext. 3440, the Guest Office, CL 1W.

Tickets for the concert are \$3.00 for adults, \$1.50, children, with student group rates available.
