Vol. 3 No. 50

December 23, 1971

IT'S BEEN A BIG YEAR AT NAL....

JANUARY - Master Substation operational
FEBRUARY - Booster achieves 1 BeV
MARCH - Popcan panels underway
APRIL - Last MR Magnet installed
MAY - Booster gets 8 BeV
JUNE - Main Ring obtains first beam

JULY - Buffalo herd increases
AUGUST - Archeology study concluded
SEPTEMBER - Felicia does her "thing"
OCTOBER - 15' bubble chamber arrived
NOVEMBER - Auditorium contract awarded
DECEMBER - 30" bubble chamber completed

(In the photos above, clockwise, beginning upper left.)

As the Village Crier goes to press this last week of December, 1971, beam studies are continuing in the NAL Main Ring. The business of bringing the enormous machine into operation is the task at hand.

All efforts on site are pointed in the same direction....each person's work in some way relates to the whole. The spirit of the holidays permits us to look back with satisfaction at 1971 and to visit briefly with just a few of the many, many people at NAL who are contributing....

THE NAL PROTONS BASKETBALL TEAM:

(L to R) Front row: Michael Wilks, Maurice Harland, James Hanks, Casey Cahill (and son, Kenneth)

(L to R) Back row: Larry Tate, Dave Billingsley, Roy Justice, Curtis Danner, Mike Armstrong

(Missing when photo was taken were Joel Jackson & Clarence Bowling.)

The Protons, displaying perhaps their best over-all team effort of this early season, were turned back Thursday, December 16, by Lantern, 70-60. The Protons are now even in their contests with three wins and losses.
