DECEMBER PROGRAMS AT FERMILAB

Fermilab's second bicentennial lecture on Friday, December 5, will feature Richard Underwood, international authority on space photography. The lecture, entitled, "Photography from Manned Spacecraft," will be given in the Auditorium at 8:30 p.m.

Mr. Underwood will come from the Lyndon B. Johnson Space Center in Houston, Texas. He has been associated for many years with the Gemini, Apollo, Skylab, and Earth Resources programs of the National Aeronautics and Space Administration (NASA). He is now a consultant to many of the NASA programs at the Johnson Space Center.

Mr. Underwood is a photographer as well as a lecturer. He is an internationally-known authority on photogrammetry, photographic sciences and aerospace photography. His lecture will include slides of the local area taken from 200 miles above the ground.

The Bicentennial Lecture Series is sponsored by the Fermilab Auditorium Committee and offered to the Fermilab community and to the general public at no admission charge. As part of the celebration of the United States Bicentennial the series brings insights into recent scientific advances in the United States. The first in the series, on October 26, presented Robert March in "From Franklin to Fermilab..."

During the month of December a photographic display of the architecture of Dankmar Adler and Louis Henri Sullivan by Ralph Marlowe Line will be on exhibition in the second floor lounge of the Central Laboratory. Mr. Line, professor emeritus in the Department of Architecture of the University of Illinois, began to photograph these historic buildings in 1944. His exhibit includes 85 prints, brought to Fermilab through the arrangement of David Sauer, now Director of Fermilab Site Services, a colleague of Line at the University of Illinois.

"The work of Adler and Sullivan represents the breakthrough and start of what is now known as 'American' architecture," Sauer notes. "At a time when we are reconsidering where we've been in our country's history, there is renewed interest in the fundamental contributions made by Adler and Sullivan.

"Professor Line's photographs include many of the Adler-Sullivan edifices that no longer exist and this is the only record we have of these outstanding buildings.

Louis Henri Sullivan (1818-1924) and Dankmar Adler (1844-1900) formed an architectural partnership in Chicago in 1881. Frank Lloyd Wright worked as an assistant in the partnership at one time. The exhibit at Fermilab illustrates the architectural forms and ornate ornamental detail of this architectural period. Some of the photos are of residences built in the Chicago area. Among the public buildings shown in the exhibit are the Auditorium Building in Chicago (now Roosevelt University); the Wainwright Building (St. Louis); the original Schlesinger and Mayer Department Store, Chicago (now Carson Pirie Scott).

The exhibit is presented at Fermilab through the kindness of Mr. Line. It is open to the Fermilab community and to the general public at no charge during the regular visiting hours. A catalog accompanies the exhibit.

AUSKALNIS WINS PROFESSIONAL AWARD

Richard J. Auskalnis, head of Fermilab Purchasing, has been recognized by the National Association of Purchasing Management, Inc. as "Certified Purchasing Manager." The certification is given to those who successfully meet the high professional standards within the purchasing profession.

...Dick Auskalnis...

Auskalnis joined the Fermilab staff in April, 1968 and headed the buying functions of the Laboratory during the construction phases as well as in the transition to regular operation. He attended the University of Illinois, majoring in Business Administration, and came to the Laboratory from the Illinois Institute of Technology Research Institute purchasing department. Dick heads a staff of 24 at Fermilab, with offices on 4W of the Central Laboratory.

Commenting on Dick's award, Don Beatty, Acting Business Manager, notes, "It is particularly noteworthy that Dick was selected for this award as a professional in the first round of this new program of the Purchasing Management Association. The Laboratory is proud to see his ability recognized and we are fortunate to have such a man on our staff."

CONCERT SCHEDULE AT ARGONNE ANNOUNCED

A schedule for the '76 chamber music concerts at the Argonne National Laboratory was recently announced. On Monday, January 12, the Canterbury Music Ensemble will perform; on Monday, February 2, the Landolfi Quartet; and on Tuesday, March 9, the Contemporary Arts Quartet. The concerts are at 8:15 p.m. at the High Energy Auditorium. Tickets are \$12.50 for the series. Dinner is available before the concert. Call Jan Ryk, Ext. 4130, for tickets and further information.

CLASSES OFFERED AT FERMILAB

Six courses will be offered at Fermilab in the quarter beginning January, 1976, by the Extension College of the College of DuPage. Employees, visiting experimenters, and members of their families over 18 years of age are all eligible to take these courses. Registration forms are available from Vivian Butler, CL-6E. Payment is due with registration.

The courses are: Air Conditioning and Refrigeration 102 (Basic Refrigeration) - (eligible for tuition reimbursement); Art 241 - Ceramics: Pottery; Canoe Building at Home; French 061 - Conversational French; Physical Education 151L - Fitness Class; Spanish 061 - Conversational Spanish.

FERMILAB MEMBERSHIP IN TENNIS CLUB

Fermilab has secured a corporate membership in the Aurora Tennis Club, Ltd. which enables all Fermilab employees, visiting experimenters and janitorial and security personnel to use the six indoor tennis courts at the club as a Laboratory recreation privilege. Players must pay court fees each time they use the tennis courts.

Several extras are available at the Aurora Tennis Club such as a nursery room during morning and afternoon hours, a permanent time for playing option, tennis lessons, and a lounge for before and after play. The winter season continues until May 23, 1976. For further information call Jane Theis, Ext. 3560.

* * * * *

TWO NEW YOGA CLASSES are now being formed. The classes are 30 minutes each and will begin at 12:00 noon and 12:30 p.m. on Monday and Wednesday. Sign up before December 17 with Jane Theis, CL-1W, Ext. 3560. Registration fee is \$8.00 per person.

DECEMBER — THE HOLIDAYS

NALREC sponsored activities are open to Fermilab and ERDA employees, visiting experimenters, janitorial and security personnel and their families.

Thursday - December 11 - Buffet Dinner and Dancing - Users Center

Buffet dinner will be served from 5:30 to 7:00 p.m. - \$2.25 per person. From 6:30 p.m. to 9:00 p.m., the band will play for dancing and good country rock.

Sunday - December 14 - Children's Christmas Party - Cafeteria and Auditorium

Bring the kiddies from 1-8 years of age to the children's party. There'll be cartoons in the Auditorium at 1:00, then punch and cookies in the Cafeteria and a gift from Santa, until 4:00 p.m.

Call Jean Sutcliffe, Ext. 3808, CL-5W, or return the slip below to tell her how many children you are bringing.

Friday - December 19 - Dinner Dance - 6:30 p.m. to 1:00 a.m. - St. Andrews Country Club - West Chicago.

Tickets are now on sale (\$7.00 per person) for this traditional holiday party. A limited number will be sold, so buy yours early. Tickets are available from the NALREC representative in your section. Call Bob Kocanda, Ext. 3734, Helen Ecker, Ext. 3393, or Liz Foster, Ext. 4203, for further information.

Tickets include two free drinks, prime rib dinner, dancing and door prizes.

Tuesday - December 23 - 5:00 to 7:00 p.m. - Holiday Happy Hour - The All-Lab Christmas Party.

Saturday - December 27 - Special trip - Nutcracker Ballet - Arie Crown Theater, Chicago.

A bus will leave the parking lot at the Users Center in the Village at 12:30 p.m. for this special holiday activity, planned especially for children. Bus transportation and ticket cost \$6.00 per person. Tickets available at the Guest Office, CL-1W.

(Detach and mail to Jean Sutcliffe, CL-5W.)

I will bring _____ children to Christmas party
on December 14 (ages 1-8).

PERSONNEL INFORMATION AVAILABLE

Members of Fermilab's Personnel Services staff for many weeks held informational meetings in different departments of the Laboratory to give information to employees about fringe benefit programs and some provisions of these programs which seem to raise questions frequently. As a follow-up to those meetings The Village Crier will present brief reviews of information about benefit provisions and reminders of things you may have forgotten, under the heading "Personnel News and Notes." In all cases the names of persons to be contacted for more details will be included. If you have questions you would like to see answered in this column, contact Janet Gregory, Ext. 3324.

+ + + + +
+
+ PERSONNEL NEWS AND NOTES +

+ Employees with health problems or suspected problems should be aware that the +
+ Medical Catastrophe (Major Medical) Insurance portion of the Fermilab employee medical +
+ insurance policy covers doctor visits. A \$100.00 deductible per individual covered by +
+ the policy, per calendar year, must be satisfied before the insurance payment applies. +
+ (Each dependent's coverage is also subject to the \$100.00 deductible.) Once the +
+ \$100.00 deductible has been met the insurance will pay 80% of succeeding office visits +
+ for the rest of the year. +

+ For example, if an employee covered by Major Medical insurance had doctor visit +
+ expenses in 1975 totaling \$150.00, the employee would be responsible for \$100.00 of +
+ this amount, and the Major Medical insurance would pay 80% of \$50.00. This means that +
+ the Major Medical is really paying \$40.00 of the \$150.00 incurred through these doctor +
+ visits. This is also true if one or more doctors have been seen. This arrangement is +
+ also true of dependent coverage. +

+ If you have any questions concerning medical insurance benefits, consult your +
+ "Employee Benefits Handbook," or call Ralph Wagner, or Sharon Koteles, Ext. 3395. +

+ + + + +

THE SUNDAY EDITION of the New York Times is now on sale on Mondays in the Public Information Office - CL-1W. \$1.25 per copy.
