## SECOND PRC GROUP VISITS NAL

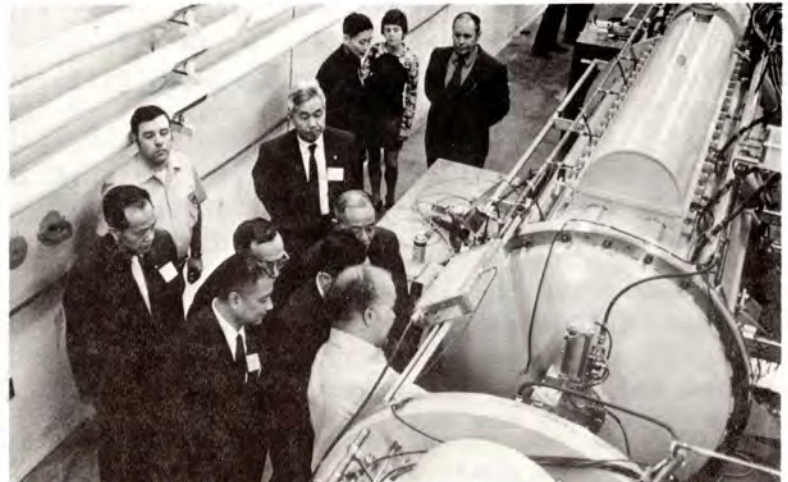

Fourteen physicists from the People's Republic of China spent three days last week at the National Accelerator Laboratory as part of their five-week tour of major U.S. high energy physics installations. The visit was arranged by the Committee on Scholarly Communication With The People's Republic of China, sponsored by the American Council of Learned Societies, the National Academy of Sciences, and the Social Science Research Council. The Committee also sponsored the visit to NAL in December, 1972 of another group of scientists from the People's Republic. Two members of that group returned with the recent tour.

The PRC physicists were housed in Chicago and travelled to NAL by bus each day. Several members of the NAL staff conducted tours of the NAL facilities for the visitors.

Officials of the National Accelerator Laboratory have stated that they look forward to opportunities for international collaboration in the field of high energy physics, which NAL serves. At the present time, no specific plans have been made for PRC physicists to carry on experiments here.

*...Chang Wen-yu (R), leader of the Chinese HEP delegation, and deputy director of the Chinese Academy of Sciences' Institute of Atomic Energy, describes his home facility to an informal gathering in the NAL Cross Gallery...*

*...NAL's Donald E. Young (lower right) explains linac operation to PRC delegation. Denise Emery, National Academy of Science coordinator for the visit is seen upper center...*

*...Ed Hubbard (L) illustrates Booster Accelerator operation to Chinese physicists...*

*...Lee Teng, NAL Accelerator Division (R), spoke to the group in his native Chinese...*

...J. Peoples (L), L. Read (Proton Section) enter by south door of Central Lab...

...Ginny Linguist (Neutrino Section) now on second floor...

...Dean Lee (L), Ron Currier, 3rd floor, Proton Section...

A new phase of NAL development opened recently when about 60 staff members of the Proton and Neutrino sections moved into the west wing of the second and third floors of the Central Laboratory and became the first of the occupants of the upper floors of the building. Laboratory facilities of the Proton section have been set up on the ground floor. John Barry, building coordinator, and the staffs of Technical Services, Plant Services and Engineering, arranged for space layout, phone service and temporary electrical connections so that the groups were able to begin work immediately after the move. The cafeteria in the building has already taken steps to accommodate the increasing luncheon volume. Heating, cooling, elevator facilities and other permanent amenities will follow during the coming months.

The move in many ways parallels the first move of NAL employees to the NAL Village in 1968, when ingenuity and dedication enabled the NAL staff to forge a working organization in the Village for the construction of the world's largest accelerator while school buses were picking up children who were still residents of the Village of Weston. Those were interesting times for Laboratory employees, and the new phase in the Central Laboratory will no doubt be remembered as a similar time in retrospect. Many employees can recall the red and white striped tent with picnic tables used as a conference room; the delights and disasters of the first air building, the pigeons in the first Users meeting in The Village Barn, all of which have become pleasant, or at least unusual, memories in the NAL history book.

In reviewing the latest move, comments were heard from all sides. Don Getz, Assistant Director, was reminded of an ancient Chinese curse which says, "...may you always live in interesting times..." John Peoples, head of the Proton section, commented on the move, "It was very well planned and executed. We were able to go right to work the next day and we function very satisfactorily in the new quarters."

Through the glass sides of the "high rise" building, the view of "Big Woods," the graceful curve of the new entrance road, and the reflecting pond, over and beyond the remaining clutter of construction equipment, give promise of the new perspectives that will come to employees and visitors as they occupy the new structure.

...L. Livingston (L), R. Cudzewicz, Proton Section...

...Proton's Bettie Howe (L), Alice Lengvenis...

...Neutrino's Homer Clover, (L) Bill Williams, George Zibrun...

1973 URA SCHOLARSHIP WINNERS ANNOUNCED

Universities Research Association Inc. has announced the 1973 recipients of scholarships for children of URA-NAL employees. Under this program, students are awarded up to \$1,200 per year in tuition and required fees when they begin a college curriculum leading to a baccalaureate. (Room, board and social fees are excluded.) Students' verbal and mathematical scores (SAT) are a consideration in the awards.

Normal progress and satisfactory standards must be maintained by the students in order to continue the scholarship benefits up to graduation, according to Bradley F. Bennett, URA Vice President for Administration.

THE VILLAGE CRIER extends congratulations to the 1973 scholarship winners. They are:

*Jeffrey  
Clark*

*Elizabeth  
Higgins*

*Vito  
Lentini*

*Gary  
Olszanowski*

*Barbara  
Reardon*

*Ann  
Severance*

*Kevin  
Skraboly*

J. Clark, son of Delta Clark, Research Services-Computer, a graduate of Wheaton Central High School. He will attend McPherson College, McPherson, Kansas. E. Higgins, daughter of Edward Higgins, Jr., Accelerator Section. Elizabeth is a graduate of Elgin High School. She will attend Western Illinois University, Macomb, Illinois. V. Lentini, son of Peter Lentini, Plant Maintenance and Operations. He will attend Northern Illinois University, DeKalb, Illinois. He is a graduate of Proviso West High School. G. Olszanowski, son of Eugene Olszanowski, Machine Shop. A graduate of Lyons Township High School, he will begin his college work at the College of DuPage, Glen Ellyn, and plans to transfer to Northern Illinois University, DeKalb. B. Reardon, daughter of Paul Reardon, Accelerator Division. Barbara graduated from Wheaton North High School and will attend Northern Illinois University, DeKalb. A. Severance, daughter of Helen Severance, Public Information. Ann graduated from Wheaton North High School and will attend Michigan State University, Lansing, Michigan. Kevin Skraboly, son of Arthur Skraboly, Neutrino Section. He is a graduate of Naperville Central High School and will attend the University of Illinois, Urbana, Illinois.

Congratulations are also extended to the four 1969 URA scholarship winners who are completing their undergraduate work in the spring of 1973:

*Barbara  
Bowker*

B. Bowker, daughter of Earl Bowker, Machine Shop. Barbara received her Bachelor of Science degree in medical technology from the University of Illinois Medical Center, Chicago. After her marriage in June, she will be working at the Carle Foundation Hospital and Clinic, Urbana, Illinois. J. Curtis, son of Cyril Curtis, Acceleration Division. Jonathan graduated from the University of Illinois-Urbana, majoring in Industrial Design. He is a Bronze Tablet Scholar and was elected to Phi Eta Sigma and Phi Kappa Phi honorary societies. T.L. Daniels, daughter of Robert Daniels, Research Services. She received her Bachelor of Science degree in education from Northern Illinois University, DeKalb, majoring in home economics education. T. Livdahl, son of Phil Livdahl, Accelerator Division. Tod graduated from St. Olaf College, Northfield, Minnesota. He majored in biology and plans to continue studying in ecological biology, possibly at the graduate school of the University of Chicago.

*Jonathan  
Curtis*

*Terry Lee  
Daniels*

*Tod  
Livdahl*

THIS WEEKEND AT NAL

Friday, June 8 - 8 p.m. - Village Barn  
International Film Society presents  
"Impossible on Saturday"

A French film photographed mostly in Israel, this comedy was directed by Alex Joffe in 1965. Robert Hirsch, a star performer of the Comedie Francaise, plays eight roles in the plot concerning an old man's directions in his will to his five sons. "...a work so versatile that it bears favorable comparison to Guinness' 'Kind Hearts and Coronets.' This is another masterpiece of that same kind," critics have said.

A new sound innovation by the Film Society makes these famous films even more enjoyable in The Village Barn. Admission is \$1.00 for adults; 50¢ for children. This is a family film. Visiting experimenters and their families are welcome. Cookies and punch will be served during the social hour following the movie.

WARM WEATHER'S AHEAD!!

Have you bought your season swimming pool pass? Better be ready when the family pleads "Let's go swimming!" Season passes are on sale during the day at the Personnel Office, 21 Sauk in the Village. A family pass costs \$20; married couple, no children, \$16; single person, \$12. Weekly passes are also available. In addition to NAL staff, also eligible to use the NAL pool facilities are guests and visiting scientists, AEC employees at NAL, DUSAF employees and NAL-based employees of B & H Janitorial and Advance Security. The pool is open from 6 a.m. to 9 p.m. on week days; 9 a.m. to 9 p.m. on weekends.

CLASSIFIED ADS

WANTED - Would like to rent a car during stay at NAL, June to mid-August. Call or write David Horn, Cal-Tech., 452-48, Pasadena, Calif., (213) 795-6811, Ext. 2647 or his home 160 S. Michigan, Pasadena, Calif., (213) 792-9792.

SUBLEASE - Apartment from June-Oct. 15., furnd., carp., 1 bdrm., Village West Apts., \$155 per mo. + elec., no security deposit. Call Susan Smith, Ext. 3467 or 897-1633.

FOR SALE - 1971 Plymouth-Fury II, 4-door sedan, V-8, automa., p/s/b, factory air, new paint job, excellent condition. Must sell-\$1300. Call Randy Crocker, Ext. 3631 or 286-3502.

FOR SALE - 1968 Triumph 650, custom front end, peanut tank, engine rebuilt one year ago, \$850. Call LaDaune, Ext. 3555.

FOR SALE - 1967 VW Campmobile, pop-top, tent, luggage rack, excellent condition, and low mileage. \$1350. Call Joe Heim, Ext. 3381 or 879-1327.

FOR SALE - 17 ft. camper, elec. brks., gas & elec. refrig., 2 tanks, sleeps 6 w/rease hitch & all controls for brks, 6 ply tires, \$1600; 3 good tires & wheels for Renault, \$5 each. Call Glen Smith, Ext. 3555 or 896-9191.

FOR SALE - 2½ yr. old Wurlitzer organ, full toy box, 13 pedals, Italian Provincial style, good condition. Call Milton Davis, Ext. 3428 or 898-4226.

FOR SALE - 1971 Classic Fibreglass boat, 165 hp, stern drive, trailer, completely equipped. Call John Semmelman, Ext. 3535 or HO 9-4624.

FOR SALE - Sears Air/Cond., 18,000 BTU, 3 fan spd., air exhaust, \$165. Call Ed Schmidt, Ext. 3534.

FOR SALE - Home stereo entertainment center w/AM-FM stereo, 8-track tape player and inputs for turntable, \$100; Stereo amp/40 watt-\$35; Stereo to Quad adapter-\$20. Call Ross Doyle, 969-2042.

FOR SALE - York window A/C-12,200 BTU-220 volts, \$125. Call Ernie Guzman, Ext. 3210.

FOR SALE - Ben Hogan men's matched & registered irons, R/Hand, incl. all weather grips, #2-9 pitch. wedge & putter, \$50 or will trade for Ping Pong Table. Call E. Barrick, Ext. 3575 or 352-2875.

FOR SALE - Sears 5 spd. bike, \$50. Call Frank Mehring, Ext. 3782 or 424-3429.

FOR SALE - Shetland Pony, 6 yr. old, gd. disposition, saddle & equipment all for \$75; Good wood extension ladder 36' long, \$29. Call M. Kampikas, Ext. 3377 or 879-1712.

FOR SALE - Regis. Appaloosa, 9 yr. old mare, 15 hands, spirited, \$350. Call G. Reid, Ext. 3391.
