## AN OPPORTUNITY TO HELP OTHERS

The Fall of the year has come to be the time to consider contributions to community charity drives. Community funds such as the Chicago Crusade of Mercy and Aurora's United Way conduct campaigns at this time, funding a number of major community organizations in the Chicago metropolitan area. They offer one popular option by which individuals can help a number of worthy causes in a wide variety of individual and family services in their communities.

NAL will this week inaugurate a plan designed to give employees broad freedom in considering community charity contributions, with the convenience of a payroll deduction to carry out employees' individual wishes. Under the NAL plan, employees may elect to contribute by payroll deduction to one, two or three charities. A pledge form, a sample of which is shown below, will be distributed with September 28 pay envelopes. The form is printed in duplicate, the original to be returned to the NAL payroll department, the copy retained by the employee. Contributions must total at least \$12.00 per year to be processed. Deductions, as specified by the employee on the pledge form, will begin January 1, 1974. The Laboratory, in turn, will forward contributions to the designated charities. No records by groups or sections will be compiled. The charity designated by the employee must appear on the list of appropriate charities published by the Internal Revenue Service.

In this way, the employee alone decides to which charity or charities he will give. There will be no personal solicitation by fund representatives inside the Laboratory, but the Laboratory will cooperate with charity drives by posting publicity materials on bulletin boards and by offering informational notes in THE VILLAGE CRIER.

The NAL plan is the outgrowth of a consideration in late 1972 by a committee of NAL employees appointed by the Director. Members of that committee were: M. Awschalom, J. Campbell, W. Cannon, R. Carrigan, R. Donaldson, M. Kibilko, and I. Sweet. Recognizing that giving to charities is a private concern, to be considered by the dictates of one's conscience in a sensitive awareness of the need for such service, the committee recommended this plan as an aid to the mechanics of making such donations possible for employees.

The committee also noted that charity contributions often are closely related to the place where an employee lives. Many people feel they should contribute to the services being utilized by them and their families. This is an important consideration at NAL where employees come from over 100 communities in the suburban area. The techniques offered in the NAL payroll deduction

AN OPPORTUNITY TO HELP (Continued)

plan will help to solve the dilemma of whether to give at home or at work. The gift is made as an individual; it is a personal obligation, given on a purely voluntary basis.

Ruth Thorson, NAL Personnel Department, has the IRS list of charities. For further information on any aspect of the plan, call her at Ext. 3324.

"Helping each other is an American tradition...one that's alive today and represents today's version of man voluntarily helping his fellow man..." one charity notes.

NAL IN 1974 SCIENCE YEAR

Two articles about phases of the work at the National Accelerator Laboratory appear in the 1974 edition of World Book's Science Year. "Science Parts the Iron Curtain" by William J. Cromie, describes the NAL-USSR collaboration recently completed. "Robert Wilson" by Robert H. March under "Men and Women of Science," is a biographical portrait of Dr. Wilson and an account of the construction period at the National Accelerator Laboratory. A copy of Science Year is in the NAL Library. Individual copies may be ordered from Science Year, Box 3737, Chicago 60654, at \$7.95 each.

PHYSICS RESEARCH TEAM UNDEFEATED IN SOFTBALL

...Standing (L-R): Roy Justice, Nelson Sample, Mike Wilkes, Bobby McNeal, Douglas Dean, Chuck McNeal, and Gene Stark. Sitting (L-R): Larry Jackson, Mike Armstrong, Ed Stitts, Jeff Ruffin, Freddie McIntosh, and Tyrone Thomas...

NAL's Physics Research softball team came through the 1973 season undefeated, 10-0. Their season record included their wild 42-3 defeat of one opponent and a close call on August 1 when the Radio Frequency team almost caught up, with three runs to Physics Research's 5. Jeff Gannon's pitching, Bobby McNeal and Roy Justice's batting, clinched Physics Research's second perfect season, the first being back in 1970.

Final 1973 standings of three other teams were: Receiving, 6-5; Radio Frequency, 5-7; and Been Transferred, 5-10. About 75 people participated in the 1973 season, working out somehow the changes in shifts and in work schedules that the summer has seen. Many of these ball players have played together for four years. Tom Schmitz and Don Breyne officiated in the 1973 season.

DID YOU HAVE A GOOD EXCUSE?

For the first time, NAL employees failed to respond adequately to a call for blood donations. Only 87 of the 200 pints needed were collected in August. The Red Cross has agreed to extend coverage for NAL through November, 1973 provided the necessary replacement pints are donated on a one-day, make-up date -- November 12.

## NALWO ANNUAL FALL TEA

Dr. Robert Wilson will speak to members of the National Accelerator Laboratory Women's Organization (NALWO) at their annual Fall Tea on Tuesday, October 2. The gathering is open to all wives of NAL staff and visiting experimenters, a chance to get acquainted and look forward to NALWO activities for the coming season. The Tea will be held in The Village Barn from 1-3 p.m.

## NEWS FROM THE ARGONNE CREDIT UNION

As a part of celebrating its 25th anniversary in 1974, the Argonne Credit Union is proposing a one-week Hawaiian tour in the Spring. If enough members can be enrolled to participate in this charter flight, travel and housing costs can be kept below \$300. An interest poll is underway. Members desiring to express their interest are urged to contact the Credit Union, Ext. 76-3789.

Effective September 1, 1973, the interest rates on some Credit Union loans were increased by one percentage point. Read-Cash (unsecured) Loans, appliance loans, shares loans, and loans for older used cars were all affected. Loans for new and used 1973 and 1974 cars will continue to be made at 9.0% A.P.R. despite the increasing costs of money. If you need a loan, contact Ralph Wagner, Ext. 3324.
