

## Interactions & Events

### **et al.**

"Stone Soup" is a children's story about a hungry stranger who begs for food in a village and is turned away from every door. He then begins preparing, in the middle of the village square, a soup made from a stone. One by one, each villager adds an ingredient to improve the soup, until the soup is enough to feed the entire village.

The spirit of sharing for the benefit of many is strong in the efforts of **Rennie Bahr** (LS/Food Ser-

vices) and **Barbara Lach** (LS/Public Info.). They each prepared a soup (chicken Orzo from Bahr, Mediterranean broccoli from Lach) on behalf of the Peace and Justice Committee of West Chicago. The soups and bread were the only thing served on November 19 at St. Mary's Church to call attention to the plight of the homeless.

The dinner, which is an annual event, is open to all interested individuals in the community. The purpose of the meal is not to solicit contributions for the homeless, but to remind people of the needs of the less fortunate, and suggest ways

in which each person can contribute for the benefit of the many. The participants were reminded that the food they had just consumed was more than the average meal for a homeless person.

The winter months are especially hard for the homeless. If everybody contributes in their own way (volunteerism, money, food, clothing) to the local shelters and food pantries, or the United Way, these small contributions can help to alleviate a small portion of the burden on the less fortunate.

## "Wellness" Works

### **"Cornucopia Kids"**

Wellness Works has joined with Batavia Parent Network to sponsor a presentation by Bruce Baldwin, Ph.D., noted author and psychologist, entitled "Beyond the Cornucopia Kids: How to Raise Healthy Achieving Children!" The program will be on Tuesday evening, January 16, 1990, from 7:00 p.m. to 9:00 p.m. in Ramsey Auditorium. Admission is free.

Dr. Baldwin defines Cornucopia Kids as children with the expecta-

tion, based on years of experience in the home, that the good life will always be available for the asking without the need to develop personal accountability or achievement motivation. His presentation will address some of the concerns of parenting, including integrating an understanding of current social realities with basic parenting skills to better meet the needs of children, and how to develop specific, effective strategies for positive parenting. The presentation will be appropriate for parents of children of all ages. - *Ruth Christ*

### **CPR Classes Offered**

Fermilab offers two CPR (cardiopulmonary resuscitation) classes. The 8-hour CPR class is for beginners. The 4-hour class is a refresher for those wishing to renew their yearly CPR certification. To attend, please obtain your supervisor's permission, then send your name, mail station, Division/Section, and extension to Neil Dal Cerro, MS 302; specify either the 8-hour or 4-hour class. - *Neil Dal Cerro*

### **Special Piano-Flute Recital in Auditorium**

Pianist Clarissa Costa and flutist Patricia MacLachlan will perform the music of Bach, Schumann, Villa-Lobos, Faure, and Hindemith at a special recital on Tuesday, January 9, 1990, at 12:00 noon in the Ramsey Auditorium. There is no admission to the recital.

## Security Subjects

### **ATM Safety**

Recent news stories have highlighted the need for caution when using automatic teller machines (ATM). The Fermilab Security Department recommends the following guidelines for your personal and account protection.

#### **Personal Safety:**

- When you approach an ATM, whether it is located in an enclosed vestibule, on the street, or at a drive-up, be aware of your surroundings.

Do not use an ATM if: the lights at the site are not operating; you see suspicious persons near the machine; you have any doubts, fears, or concerns.

- Park your car in a well-lit area near the ATM. Check the surrounding area before leaving the safety of your car. Be sure to remove your keys from the ignition before leaving your car.

**"ATM" cont'd on page 2**

## "ATM" cont'd from page 1

- When using a drive-up ATM, be sure all windows but the driver's are closed and the doors are locked. Keep your engine running. Be aware of individuals loitering on foot in the area.

- If you sense an individual crowding you or attempting to view your transaction, cancel the transaction and leave the ATM location.

- After you finish your cash transaction, keep your cash hidden. Immediately place it in your wallet or purse before leaving the ATM.

- As you leave an enclosed ATM vestibule, do not open the door to a person waiting outside to gain entry. That person should gain entry by using their ATM card to unlock the door.

- If you are followed from the ATM, go to a safe place where there are people, activity, and security. Call your local police department and report any suspicious activity. Report all incidents to bank management or security.

### Account Protection:

- Memorize your personal identification number (PIN). Do not write it on your card or give it out over the phone to persons claiming to be police or bank officials.

- Guard against others observing you keying-in your PIN at the ATM. Use your body to shield the keyboard.

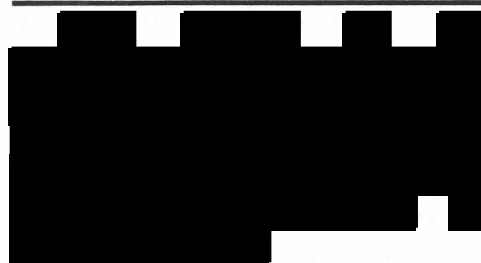

- Keep your receipts and inspect your banking statement monthly. Report all suspicious or unauthorized transactions immediately.

- Immediately report lost or stolen ATM cards to your financial institution and file a report with your local police. (Source: Citicorp information pamphlet) - *W. Flaherty*

## ✻ The Film Society...

...will be compiling the 1990-1991 schedule of films during the next two months. If you are interested in joining the committee, contact Paula Garrett, ext. 3401 or FNAL::PGARRETT

## ✻ Congratulations to:
