SPECIAL

WHAT A PARTY!

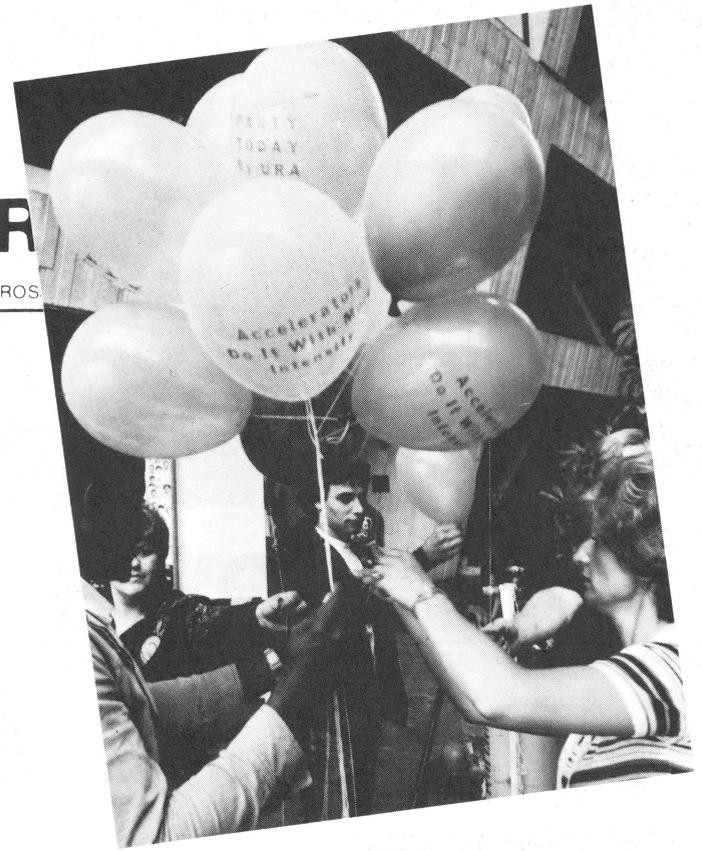

We are celebrating the 15th Birthday of
 Fermi National Accelerator Laboratory.
 Please help us celebrate by writing us
 a note telling us who you are and where
 you found our balloon.

5P.M.

TO: The Employees at Fermilab

OCCASION: 15th Anniversary of the Fermi Accelerator

PATTER SONG:

I've sung songs to all kinds of people...some were great
and some were greater, but this is the very 1st time
I've sung "Happy Birthday" to a 400 GEV accelerator.

And I've greeted many new born babies of all shapes and
sizes on this earth, but this is the very 1st time I've
saluted (salute) an Energy Saving Super Conducting
Accelerator's birth!

TUNE: Give my regards to Broadway

.....So here's to...
All of the folks at Fermi
A 15th Anniversary
400 GEV beams proudly
On the new-born TEV.
Since it has now been proven
You passed the Big "A" sector test.
3 cheers for the super staff at Fermi
You're the Brightest and the Best!

POEM:

I must admit I wondered
At your scientists' abilities
When wandering thru Fermi Land
And all of it's facilities.

I thought the Laboratories
Held the secrets no one knew
Imagine my amazement
When I stumbled on a ZOO!

TELE TUNE

SONG: Home on the Range

Oh, Fermi's a home where the buffalo roam
Where the foxes and pheasants do play
But gone is the peace when you bring in the geese
To attack the poor jiggers all day.

15 years ago Robert Wilson said, "NO...
The old boardroom's no place to amass.
I will sculpture a bell and I'll ring it to tell
All the staff that we'll meet on the grass.

Although it's a farm, it should cause no alarm
To paint buildings the colors of flames
So what is the Feds think we're out of our heads
Using streets that bear Indian names.

We've hosted the best...North or South, East or West
Other scientists come here to play.
Whether Russian, Chinese..Fermi's aim is to please
With an opera or Bolshoi Ballet.

How could we forget our delightful ferret
Dear Felicia, so sweet, so sublime.
With the cable she ran just to show that we can
Get the Fermi name published in TIME.

CHORUS:

So, thanks to URA
Who have made this 'spectacular day
Happy Anniversary to the Staff at Fermi
#1 in the whole USA!!!

15th Anniversary Party Committee: Chuck Marofske, Jean Plese, Pat Moyer, Cynthia Sazama-Reay, Marilyn Paul, and John Barry, with assistance from Tim Toohig, Carol Weissert, and Ron Haynes.
