## RECREATION CLASSES OFFERED AT FERMILAB

The Extension College of the College of DuPage, Glen Ellyn, will offer two recreational classes at Fermilab starting June 17, Jane Theis, Fermilab recreation manager, announced this week. A canoeing class will begin June 17 and tennis instruction will open June 18. Details on the classes are as follows:

### Canoeing - Physical Education 158N

Course includes analysis of historical and organizational aspects of canoeing and basic equipment. Emphasis on skill development in use of paddle, handling boats on land, and water and reading water; trip discipline, leadership and planning. Pool training for skills and safety, lake sessions, a one-day final exam on a weekend on a nearby river.

Instructor: Fred Tennison                      \$10.00                      1 Credit Hour  
Tuesday & Thursday                      June 17 - July 22                      6:00-8:30 p.m.  
Classes will be held at 16 Potawatomi in the Village.  
Class size limited to 30 persons.

### Tennis I - Physical Education 156B

The learning and performance of fundamental psycho-motor skills and techniques of tennis is stressed in this course. Knowledge pertaining to tennis and the skills and techniques involved in participation.

Instructor: Keith E. Feiler                      \$10.00                      1 Credit Hour  
Wednesday                      June 18 - August 20  
8:30-10:30 a.m.                      or                      6:00-7:50 p.m.  
Classes will be held on the tennis courts by the Village Barn.  
Class size limited to 14 persons.

Registration forms for these classes may be obtained from Jane Theis, whose office is in the Central Laboratory, first floor west. Her phone is 840-3560. Registration and fees must be filed by June 16. A \$5.00 matriculation fee is charged first-time students of COD.

Mrs. Theis points out that because this is a satellite course of the College of DuPage, it is open to anyone 18 years and over. Held at Fermilab for the convenience of employees and visitors, families and friends and others interested may take the COD courses at Fermilab.

A guide list of all Fermilab recreational activities is also available from Mrs. Theis. Prepared for the convenience of first-time visitors to Fermilab, the list points out the wide variety of recreational activities that now exist at Fermilab. Swimming activities this year have added a children's swim team which will compete in area swim meets. Four softball teams get into hard intermural competition this week.

In the interest group activity, the women's organization (NALWO) will hold a picnic for visiting families on Wednesday, June 18. The NALWO cooperative playgroup welcomes new pre-school children who may be here for the summer.

The sandbox set will observe their own milestone soon with the opening of the Village playground behind 18 Sauk.

## FERMILAB EXPERIMENTER ABDUCTED

Early Sunday morning, June 8, a visiting scientist working at Fermilab was abducted from The Pad, a dormitory in the Fermilab Village, by a group of seven men who reportedly escaped earlier Sunday morning from the Geneva Training Center, Geneva, Illinois, about ten miles northwest of Fermilab. The experimenter was forced to drive these men into Chicago at knifepoint in a car rented by the experimental group with which he is associated. In Chicago his wallet was taken and he was released by the abductors. He went immediately to the Chicago police with details of the incident.

The case is under the jurisdiction of the DuPage County Sheriff who is working with the Chicago police. The Fermilab Site Patrol and the Fermilab Site Manager were advised of the abduction early Sunday morning, and they assisted the local law enforcement agencies. The Federal Bureau of Investigation was notified by the Laboratory. Due to prompt work by the law enforcement agencies and quick thinking by the experimenter, two of the suspected abductors were quickly apprehended.

Fermilab's security protection handled under a contract with Advance Industrial Security, Inc. provides for a 30-person force, which provides continuous patrol of the Laboratory. The Laboratory also employs a four man supervisory staff for the guard force. The Fermilab Village area is patrolled with roving guards at a frequency higher than most municipalities.

The Laboratory has frequently asked nearby correctional institutions to inform the Site Manager of any breakouts at their institutions. Fermilab was not informed Sunday morning of the breakout at the Geneva Training Center. The procedure has since been firmly established, and the responsible government units have now guaranteed Fermilab will be notified directly if a breakout occurs.

## BUDGET CRISIS EASES

Fermilab Director R. Wilson informed Fermilab employees last week that the Laboratory will end FY 75 without a cost over-run. He thanked everyone for their assistance and patience in the efforts to reduce expenditures toward this end. Dr. Wilson also announced that ERDA has provided an additional \$375,000 in operating funds for Fermilab and another sum of \$750,000 for equipment funds, "which will be most useful to our program," he said.

## THE EDWARDIANS AT FERMILAB JUNE 14

A group of vivacious, talented young performers known as The Edwardians will appear at Fermilab on Saturday, June 14, at 8:30 p.m. in the auditorium.

Combining the vitality of youth with the showmanship of experienced performers, The Edwardians are directed by James S. Edwards. A graduate of Illinois Wesleyan and with a M. M. degree from Northern Illinois University, Edward's career has included participation in every kind of musical group from symphony orchestras to night club entertainment. He has taught choirs and bands and given private lessons.

...The Edwardians...

All members of The Edwardians cast are able to sing, to dance, and to play at least one musical instrument. The Edwardians appeared by invitation recently at the Concerts in the Plaza sponsored by the First National Bank of Chicago. They are scheduled for the July 4 program at Soldiers Field, Chicago. Their program combines pop-rock, Dixieland, Broadway, and other well-known music styles to give a program to suit all musical tastes. Choreography for The Edwardians is by Mary E. Nosek.

Reservations for the program may be made in advance by calling Ext. 3440 or Ext. 3091. Tickets are \$3.00 for adults, \$1.50 for children.

## INTERNATIONAL FILM SOCIETY

The famous British movie, *Kind Hearts and Coronets*, will be shown at Fermilab on Friday, June 13, at 8 p.m. The public is invited.

The 1949 film stars Alec Guinness. In the story, a young man vows vengeance on the d'Ascoyne family which had spurned his mother when she married a commoner. He murders the eight heirs who stand between him and the Dukedom of Chalfont. He is accused of a murder he did not commit and is condemned to death. At the last minute, he is reprieved, but forgets in leaving prison to take his memoirs with him in which he confessed to all of the other murders.

Guinness plays all eight roles of the murder victims and received the acclaim of critics for his extraordinary performance. The film is considered the best British comedy produced at the Ealing studios, under Michael Valcon.

The film is presented by the Fermilab International Film Society as one of its summer series presented on the second Friday of each month. Admission is \$1.00 per person.

## HEART RESEARCH AT FERMILAB

The Laboratory has accepted an invitation to participate in a "Heart Attack Prevention Program." The program is being conducted by Presbyterian-St. Lukes Medical Center of Chicago. It is a project of the National Heart and Lung Institute, U.S. Department of Health, for males between the ages of 35 and 57. The screening process will take about 15 minutes. Letters are being sent to all male employees of Fermilab in this age group explaining the program. The Fermilab Medical Office urges those contacted to take advantage of the screening. It will be held in the Conference Room, CL-1W, on Thursday, June 26, 1975 from 12 noon to 8 p.m. and Friday, June 27 from 8 a.m. to 4 p.m. For appointment times, please call the Medical Department, Ext. 3232.

\* \* \* \* \*

A *PERSONAL NOTE*...Georgi and Olga Takhtamyshev wish to express their gratitude to all friends in Fermilab for congratulations on the birth of their son Georgi.

## GOLF TOURNAMENT

A golf tournament for Fermilab, ERDA, Mercury Management, and Advance Security employees and their immediate families is planned for Sunday, June 22, at the Fox Valley Country Club on Rt. 25, three miles south of Batavia. The entry fee of \$7.00 includes greens fees and prize money. All entrants are eligible for prizes to be awarded in these categories: low score scratch, low score handicap, closest to pin. Last day to enter is June 16. Call Ellery Cook, Ext. 3734.

\* \* \* \* \*

LAST DAY to sign up for NALREC Spain trip is Monday, June 16. Call Liz Foster, Ext. 4203.
