SUMMER VISITORS ARRIVE AT FERMILAB

The first of June is a date of transition at Fermilab. On June 1, more than 400 people who finish the academic school year at universities and colleges across the U.S. and abroad, come to devote several months to experimenting at Fermilab. For weeks before, plans have been made so that this transition could go smoothly and these visitors could quickly be settled and ready to do the work for which they have come to Fermilab.

While it will take many more months before remodelings and re-arrangements are completed, much of the Fermilab Village is gradually returning to a residential community after serving as temporary administrative offices for six years. Before that, it was the village of Weston, Illinois, a part of the package of 6,800 acres given by the State of Illinois to the former Atomic Energy Commission as a site for the construction of Fermilab.

Twenty-seven houses have been furnished and are being rented to visitors this summer. Four permanent dormitories, and another temporary dormitory, provide quarters for 83 single visitors. The 18 units in Aspen East provide single and double sleeping rooms; 11 other apartments have been created in the farm houses on Sauk Circle.

Among the groups most directly involved in the experimenter's migration are the Housing and Travel offices of Personnel Services, headed by Dorothy Carlson; Site Services, headed by Dave Sauer; the Guest Office, run by Janice Roberts, and the Users Office. During the past weekend, the first two groups supervised a complete turn-over of the on-site living accommodations for visitors. The Housing Office, led by Mrs. Carlson, with Gerry Dean and Sammy Rumble, first managed the exit by the people whose nine-month leases terminated on June 1. They then rolled up their collective sleeves and with the assistance of Site Services and the crews of Mercury Management, and Don Smith and Paul Bishop of T & M Contracts, all of the residences were cleaned and refurbished for occupancy by new tenants on Monday, June 3rd.

...Fermilab visitors moved last weekend...

...Dave Leppard, Paul Orosco (L), and Al Schweisthal (R) of Site Services prepare for new tenants...

...S. Rumble checks in new tenants at Housing Office...

PING PONG CHAMPS

...D. Mahler accepts award from J. Satti...

Debbie Mahler, wife of Rich Mahler, Accelerator Control, won the women's division of the recent Fermilab Ping Pong Tournament, becoming the first woman trophy winner in the popular contest. Ruth Pordes, Computing Department, was second-place winner.

John Cumulat, Experiment #25, becomes the men's division champion for 1975, winning over Charles Young in the final match. John Satti, NALREC co-chairman with John Elias, awarded trophies following several weeks of play-offs among the 30 entrants.

LIFE POLICY AMENDMENT

Fermilab's dependent group life insurance policy has been amended so that children between the ages of six months and twenty-one years are covered under the policy. The original policy excluded female children after attainment of age eighteen.

If you have any questions or would like more information concerning dependent life insurance program, please contact Ralph Wagner, Employee Benefits, Ext. 3395.

IN MEMORIAM

LAWRENCE MILLER

Lawrence Miller, 64, an employee of Advance Industrial Security, Inc., died while at work at the Fermi National Accelerator Laboratory, Batavia, on June 1, 1975. He had been assigned to Fermilab since May, 1974. An autopsy performed by the DuPage County Coroner's office determined that the death was due to heart disease.

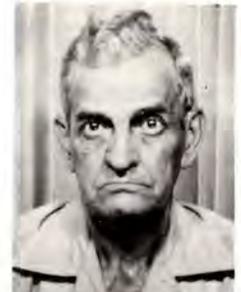

At the time of his death, Miller was stationed at a desk in the reception area of the Meson Detector Building at Fermilab. He was last seen alive at 1:00 a.m. at this station. At 1:15 two Fermilab employees discovered his body lying on the floor next to his chair.

Efforts to revive Miller at the scene by Laboratory first aid personnel and DuPage County Sheriff's officers were not successful. He was taken by the Fermilab ambulance to Central DuPage Hospital, Winfield, where he was pronounced dead on arrival.

Miller, who resided at 900 Hill Avenue, Aurora, is survived by his widow and two sons, Lawrence Jr., and Gary D., both of Aurora.

Chief J. Monningh, Advance Industrial Security, Inc., said, "Officer Miller was a dedicated and efficient security officer. He was liked and respected by his fellow officers and by the Laboratory employees with whom he came in contact."

Funeral services were held at St. Theresa Church, Aurora, at 9:30 a.m., Tuesday, June 3. The family has requested that memorials be made to the Heart Fund or other charities.

Miller

1975 GRADUATES

1975 FELLOWSHIP AWARDS

Universities Research Association has announced the 1975 recipients of fellowship awards among the children of Fermilab and URA employees. The awards, up to \$1,200 each in tuition and fees, are given to students who will enter a four-year program leading to a baccalaureate degree in the Fall of 1975. Scores in SAT tests are weighed in consideration of awards, and students are expected to maintain satisfactory scholastic standards. The new recipients are:

Rebecca Cole, daughter of Frank Cole, Accelerator Operations, who will attend the University of Indiana at Bloomington. Rebecca is a graduate of Wheaton-Warrenville High.

Thomas Droege, son of Tom Droege, Research Services, who will attend the University of Illinois, Urbana. Thomas is a graduate of Downers Grove North.

Patricia Kerns, daughter of Cordon Kerns, Physics, who will attend Greenville College, Greenville, Illinois. Patricia graduated from Wheaton Central High.

Deborah Mills, daughter of Fred Mills, Accelerator Operations, who will attend the University of Colorado. Deborah graduated from St. Charles High.

Douglas Nicholls, son of Gilbert Nicholls, Accelerator, who will attend the Johns Hopkins University. Douglas graduated from Lincoln Sudbury High School, Sudbury, Mass.

Mathew Pallaver, son of Carl Pallaver, Neutrino, who will attend Illinois Institute of Technology, Chicago. Mathew is a graduate of Downers South High School.

Johan Sauer, son of Dave Sauer, Site Services, who will attend Northwestern University. Johan is a graduate of Batavia High School.

Blair Voyvodic, son of Lou Voyvodic, Neutrino, who will attend McGill University, Montreal. Blair is a graduate of Hinsdale Central High School.

URA also announces that six URA fellowship winners are completing their undergraduate work in the Spring of 1975. Leonardo Awschalom, son of Miguel Awschalom, Research Services, will receive a Bachelor in medical science from Northwestern University. Leonardo will continue on to finish the six year program in medical science. James Frazier, son of John Frazier, Legal, will receive his A.B. in history and government from Monmouth College, Monmouth, Illinois. Steven Hinterberger, son of Hank Hinterberger, Technical Services, will graduate in computer science from the University of Illinois, Urbana. Joon Kang, son of Yong Woo Kang, Computer, will receive his degree in electrical engineering from the University of Illinois. Chris Kleber, son of Frank Kleber, Magnet Facility, will receive his degree in biology from Vanderbilt University, Nashville, Tennessee. Last January Chris Reardon, daughter of Paul Reardon, Accelerator Administration, received her degree in special education from Northern Illinois University.

1975 SCHOLARSHIP WINNERS

THINK FLAVORS

Fermilab's Food Services will offer another Think Flavors Day next week. A Think-Orange Festival will take place on Wednesday, June 11. There will be free glasses of orange juice during the regular breakfast and lunch serving times. Special orange salads and desserts will be prepared by the cafeteria staff. And, you may want to try a special "Sunshiner Milkshake." Random numbers picked through cash register will bring beach balls to some lucky customers.

GOLF TOURNAMENT JUNE 22

A golf tournament for Fermilab, ERDA, Mercury Management, and Advance Security employees and their immediate families is planned for Sunday, June 22, at the Fox Valley Country Club on Rt. 25, three miles south of Batavia. The entry fee of \$7.00 includes greens fees and prize money. All entrants are eligible for prizes to be awarded in these categories: low score scratch, low score handicap, closest to pin. Last day to enter is June 16. Call Ellery Cook, Ext. 3734.

FAREWELL PARTY FOR PAUL REARDON

A farewell party is planned for Paul Reardon on Friday, June 13. Reardon is leaving Fermilab to head a fusion reactor development project at Princeton University. The party will be held at the Village Barn beginning at 8 p.m. There'll be dancing, piano bar, and sing-a-long, cash bar, sandwiches, and snacks. A \$2.00 donation includes gift. Contact Denise Blayne, Ext. 4038, or Helen Ecker, Ext. 3393, by Tuesday, June 10. Reservations are limited.

* * * * *

.....THE NORTHERN ILLINOIS ROCKETRY ASSOCIATION will hold its regional model rocket competition on the Fermilab site on Saturday, June 7, and Sunday, June 8, at a location south of Eola Road. A display of scale rockets will be judged in the Village Barn on the evening of June 7. The Public is invited to the display. For further details, call Cheryl Stadfeld, Public Information, Ext. 3341.

CLASSIFIED ADS

FOR SALE - 2 studded snow tires 8:85 x 15, mounted on rims for 66 Electra (Used 5 seasons). \$20.00 Call John W. Hall, Ext. 3785, 355-5276.

FOR SALE - Tiger 500 Capacitor Discharge Ignition System, used, \$18. Delco 8-track unit, used in good condition. \$25. D. Vonohlen, Ext. 4050.

FOR SALE - Convertible Baby Stroller, \$20; Inch Worm, \$4; Car FM Converter, \$15. Call Rich Parry, Ext. 3724, 892-8346.

ATT'N. - Entries for the Miss Illinois/World Contest may be obtained from Denise Augustine, Ext. 3091, or Ellen Kukuk, Ext. 3208. The Miss Illinois/World entries must be in by June 21, 1975, and the contest will be held on July 5, 1975.

FOR SALE - 1968 Bridgestone Motorcycle, 175 cc. Needs some minor repair. Best offer over \$150. Baby Crib, 6 yr. w/mattress, good cond. \$15. Fred Walters, Ext. 3330, 687-7246.

FOR SALE - Sears Galaxy 5000 Spinet Organ. Has rhythm section, 2-spd. Leslie Speaker and more. Asking \$1,100. Diane Kowalski, Ext. 4039 or 653-6845 after 6:00 p.m.

FOR SALE - Oak Flooring ("Malvern"), approx. 300 sq. ft. in very good cond. Best offer considered. 355-3312.
