

"Happy Fiscal New Year! In a few days, we will bid farewell to Fiscal 1985 and, with the usual mixture of expectation and fear, greet not-quite-yet-born Fiscal 1986. (Due to some hang-up in the Congressional delivery room, we may not actually meet FY86 for a few more weeks.) The reason for this party is **YOU** - the Fermilab Staff. We have had one of the very best years in Fermilab's history: if we were a corporation, our chart would show lots of black ink. We provided an unusually large number of experiments an unusually large number of protons at the unusually high energy of 800-billion volts.

"We have commissioned the new beam lines needed for '86 so that there is only one left to go in our TEVATRON project. We have gone far beyond original schedules in commissioning the Proton-Antiproton Collider, the accelerator systems designed to deal with antiprotons, and the CDF detector. All of this - you did, so this party is your party.

"Accelerator Division, Research Division, TeV I, Business Services, Technical Support, Laboratory Services, Warehouse, Farm Management...you name it - you have all contributed - you are beautiful beyond words and, by this event, we try to tell you how much we appreciate you."

BATAVIA, IL 60510

AT THIS TIME OF THE HARVEST SEASON (AND ENRICO FERMI'S BIRTHDAY) IT IS HIGHLY APPROPRIATE THAT FERMILAB USERS AND STAFF CELEBRATE THE BOUNTIFUL PHYSICS HARVEST WHICH WILL RESULT FROM THIS YEAR'S LONG, SUCCESSFUL RUN OF THE TEVATRON. IT GIVES US GREAT SATISFACTION THAT FERMILAB WITH ITS WORLD FOREFRONT TEVATRON, AND ITS COMPLEMENT OF SOME OF THE WORLD'S MOST OUTSTANDING USER GROUPS, HAS HAD SUCH A PRODUCTIVE YEAR. WE SHARE YOUR PRIDE AND WISH TO JOIN IN YOUR PRAISE OF THE MANY PEOPLE AT THE LABORATORY WHOSE DRILLIANCE, HARD WORK AND DEDICATION HAVE MADE THIS POSSIBLE.

Bill Wallenmeyer

WILLIAM A. WALLEMEYER
DIRECTOR
DIVISION OF HIGH ENERGY PHYSICS

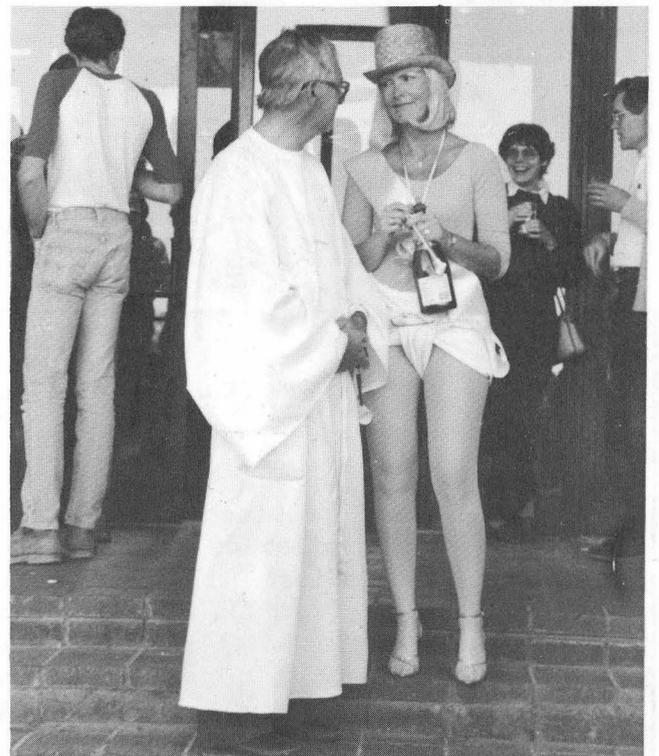

**A NOTE ON
THE DEDICATION OF THE PROTON-ANTIPROTON COLLIDER ON
OCTOBER 11, 1985**

The Secretary of Energy, John S. Herrington, and prominent DOE officials will come to Fermilab on Friday, October 11, to help dedicate the Proton-Antiproton Collider (TeV I). Governor James Thompson and other distinguished guests will also attend. The ceremony will take place in the Auditorium from 1:30 p.m. to 2:45 p.m. Invited Fermilab staff from TeV I, Accelerator, Technical Support, etc., will fill the Audi-

torium. (THEY SHOULD BE IN THEIR SEATS PROMPTLY BY 1:30 p.m.)

The Dedication Ceremony may be heard in the Cafeteria, and all are invited to listen. There will be lots of interference with elevators, parking, etc., and we beg the indulgence of all during the hours 11:30 a.m. to 3:00 p.m. on October 11.

Thanks goodness there was a clergyman on hand.
