Fermi National Accelerator Laboratory

Benefits Notes

Universal Life Insurance

Fermilab has again made arrangements with Corporate Benefit Systems, Inc., (CBS), to offer the supplemental life insurance program for you and your family. This program is voluntary and available to all active, full-time employees who have completed six months of service with the Lab.

A letter was mailed to the mail stations of all employees hired between January 1, 1986, and February 1, 1987, describing the plan. All other employees were given the opportunity to join the plan last year. However, if you wish to meet with the CBS representatives to ask questions or join the plan, they would be happy to do so.

Please contact the Employee Benefits Office at ext. 3395 or ext. 4361 to schedule an appointment for the week of June 22, 1987.

Wellness Works News

As part of its ongoing preventative health programs, Dreyer HMO invites its enrollees, and any other interested Fermilab employees, to participate in two seminars to be sponsored by the Dreyer Sports Medicine Center.

"A Beginner's Guide to Health and Fitness" offers tips on inaugurating an exercise program and discusses precautions, equipment, shoes, intensity levels, and motivation. This seminar, conducted by Jeri Steinmetz, P.T., A.T.C., will be held on Tuesday, June 23, 1987, from 7:00 p.m. to 8:00 p.m.

Gil Webb, P.T., will discuss "Your Aching Back," offering guidance on proper back care and the mechanics of performing daily tasks in a manner suited to avoiding injury. Date: Thursday, June 25, 1987, time: 7:00 p.m. to 8:00 p.m.

Both seminars will be held in the lower level (orthopedic/rehabilitation) waiting room at the Dreyer Medical Clinic, 1870 West Galena Blvd., Aurora. There is no charge for either seminar and all are welcome. For more information, call 859-6842.

NALREC Notes

Good Times For All at Hard Times Party

The latest edition of NALREC's traditional Hard Times Party kicks off on Friday, June 26, 1987, from 5:15 p.m. to 9:15 p.m. at the Village Barn, featuring music by Croozin' the Loop, pizza (2 wedges for \$1.25), beverages, and the usual hilarity.

Ants on Full Alert as Plans for NALREC Family Picnic Take Shape

Hear ye, hear ye - get your FUN fellow employee group together and plan to attend the 1987 Fermilab Picnic, scheduled for **Sunday, August 2, 1987, from 11:00 a.m. to 6:00 p.m.**

This annual event is for the families of employees, visitors, and contractors. The NALREC Picnic Committee is planning to incorporate some old activities and some exciting new activities in this year's action-packed program. There are rumors of a GRUDGE VOLLEYBALL TOURNAMENT, a radio-controlled-airplane flying contest, the awe-inspiring sweet-corn steam engine, and the infamous dunk tank featuring prominent Labsters in a vulnerable position. This being a picnic, there will, of course, be all the food and liquid refreshment one could hope for, modestly priced for all to enjoy.

Please plan your summer schedule accordingly. Watch *FermiNews* for our next bulletin. See you at the picnic!

- Trudy Kramer

In the Library

Four video tapes on "Hi Tc Superconductivity" from the APS conference held in New York in March are available for viewing.

The Users Center is Not Closed!

Renovations to the Users Center are under way (a full rundown on the work will be featured in the next issue of *FermiNews*), but, with the exception of the game room, the U.C. is open for business as usual.
