

Fermilab Arts Series

... presents its annual Chamber Music Series subscription offer.

Outstanding musicianship, innovative programming, and good value await subscribers to Fermilab's fifth annual Chamber Music Series. The Fermilab Auditorium Committee has worked extra hard to assemble three stimulating ensembles who have caught international attention. Look what we've arranged!

New York Woodwind Quintet, Saturday, November 4, 1989, at 8:00 p.m.

It's the first chamber concert of our season, the first time we've featured a woodwind quintet, and a first-class ensemble! Recognized as one of the world's pre-eminent chamber ensembles, the New York Woodwind Quintet performs the music of Beethoven, Francaix, and Mozart with "technical acumen and virtuoso interpretation, and... with love."

"Wellness Works"

"Is Your Family Sun-Safe?" is the next "Wellness Works" presentation scheduled for Tuesday, July 25, from 12:00 noon to 1:00 p.m. in WH 1West. People of all ages and all skin types are susceptible to skin cancer, no matter how tolerant they may think their skin is to the sun, or how dark their skin tone is.

The topic of skin wellness will be covered in a 13-minute videotape

Leipziger Bach Collegium with Ludwig Guttler, Saturday, January 13, 1990, at 8:00 p.m.

Highlighting an evening of Baroque ensemble music by the seven-member Leipziger Bach Collegium is the ensemble's conductor and trumpet soloist, Ludwig Guttler. These are the comments typical of the critics: "Guttler's outstanding musical personality expresses itself through his perfect and poetic trumpet playing," and "I have heard fine Baroque trumpeters...but Ludwig Guttler, the contemporary phenomenon from Leipzig, puts all of them, to date, in the shade!"

An Die Musik -- The Composer's Composer, Saturday, April 7, 1990, at 8:00 p.m.

"To Music" translates their name, and "to composers" toasts An Die Musik. Musical themes of past composers have inspired Dave Brubeck and Andre Previn to write new works for An Die Musik, and

this unique program will feature both these new works and the music on which it was based. The five members of An Die Musik (oboe, piano, and strings) have been described as "endearingly energetic and intimate" and possessing "authoritative command and beauty of tone and style."

Take advantage of the special series subscription price of \$27 and ensure the seats of your choice by purchasing your Chamber Music Series tickets immediately. Subscription orders are available by mail only and will be filled in the order they are received. Single tickets are not available until October 1st. Your canceled check will be your receipt, and your tickets will be mailed to you.

For further information, phone ext. ARTS weekdays between 10:00 a.m. and 12:00 noon, or 1:00 a.m. to 4:00 p.m. Please remember that no subscription orders can be taken by phone. - *Tammey Kikta*

containing information about sun exposure, skin cancer, and prevention. The film reviewed the three types of skin cancer and their characteristics, and demonstrates self-examination using a body map. A skin wellness brochure with information on how to maintain and protect the skin will be available to each participant.

Required pre-registration can be made by calling Dotti at ext. 4367.

- *Dotti Swanson*

The Fermilab 1988 Annual Report is now available from the Publications Office, Wilson Hall 6NW.

The Activities Office

We are again offering scuba-diving lessons at the Fermilab Pool. Now is your chance to try this adventurous, relaxing, and fun sport. Lessons will be held on five consecutive Thursdays starting July 27. The classroom session begins at 6:45 p.m. and ends at 8:15 p.m. at the Users Center. Pool sessions begin at 8:30 p.m., ending at 10:00 p.m. Each student will be required to provide his/her own mask, fins (open-heeled preferred), and snorkel. Minimum age limit is 12 years of age. Cost is \$100.00. After completion of this course, you are prepared to take the "open water" training dives for PADI certification. These dives are at an additional cost and will be arranged after completion of this course.

If you are seriously interested in taking this course, call Jean, ext. 3126, by July 24. - *Jean Guyer*

Recent Retirements:

Betty Kastner (*Res. Div./Computing*), I.D. #538, retired from Fermilab on July 7, 1989, after 20 years and 6 days of Lab employment. An "original" member of the Computing Department, Betty worked on "whatever equipment there was: RADS Station link to Argonne, UNIVAC terminal to NYU and unit records equipment, then a Digital PDP-10, IBM 360/40 and CDC 6600, and finally, IBM 4381, VAXes, ACP's, and the Amdahl."

Betty plans to spend her free time on family, music, bird watching, graphoanalysis, hatha yoga, and toy making (first project: a Teddy bear for her grandchild).

Interactions & Events

et al.

Elizabeth Austin, daughter of **Sharon Austin** (*Physics Section*) and **David Austin** (*Tech. Suppt./Admin.*), has been awarded a full-tuition scholarship to Purdue University by the Furnas Foundation, which recognizes outstanding students living within a 12-mile radius of Batavia.

Scholarship awards are based on academic record and participation in extra-curricular, community, or organizational activities. Lisa is a graduating senior at Batavia High School, and has been captain of the varsity cheerleading squad for the past two years. She participates in both football and basketball cheerleading. She is an honor student and member of the National Honor Society. She also coaches gymnastics and teaches dance through the Batavia Park District. She will be attending Purdue University in the fall.

The Furnas Foundation was founded by William Carlyle Furnas, who graduated from Purdue University in 1908 and contributed generously to scholarship programs during his lifetime. The Foundation awards a full-tuition scholarship to Purdue each year in his name.

- *Christine Grusak*

Ernie Malamud (*Accel. Div./Pbar Source*) was recently honored as "Citizen of the Week" by WBBM radio for his leadership in the creation of SciTech, a new hands-on science museum currently located in Naperville.
